

Material Safety Data Sheet

FC01-08 Perfluorooctyl Iodide

Revised 12-August-2009

1. PRODUCT AND COMPANY IDENTIFICATION

Material Identification:

Product name: FC01-08
Chemical name: Perfluorooctyl iodide
1-Iodoheptadecafluorooctane
Chemical formula: $CF_3CF_2CF_2CF_2CF_2CF_2CF_2CF_2I$
 $C_8F_{17}I$

Company Identification:

Distributor: **Fluoryx, Inc.**
1933 Davis St., Suite 293
San Leandro, CA 94577
USA
Emergency call: +86-1346-4812437
+1-510-329-2811

2. COMPOSITION AND INFORMATION ON COMPONENTS

Material	Molecular Weight	Weight Percent	EINECS #	CAS #
Perfluorooctyl iodide	545.96	> 99 %	208-079-5	507-63-1

3. HAZARDS IDENTIFICATION

Emergency Overview:

Remove victim from exposure and lie down. Never give anything by mouth to an unconscious person. If a person vomits when lying on his back, place him in the side recovery position. When symptoms persist, or in all cases of doubt, seek medical advice.

Potential Effects of Exposure:

Dermal contact:

Skin contact may cause skin irritation with discomfort or rash.

Inhalation:

Inhalation may cause irritation of the nose and throat with sneezing, sore throat, or runny nose.

Inhalation of large amounts of aerosolized respirable particles may cause pulmonary edema (body fluid in the lungs). Symptoms may be modest initially, followed in hours by severe shortness of breath

Eye contact:

requiring prompt medical attention.

May cause eye irritation with discomfort, tearing or blurring of vision.

Carcinogenicity Information

None of the components present in this material at concentrations equal to or greater than 0.1% are listed by IARC, NTP, OSHA or ACGIH as a carcinogen.

4. FIRST AID MEASURES

Potential Exposure:

Inhalation:

Remove to fresh air. If breathing is difficult, give oxygen and seek medical attention.

Eye contact:

Flush with copious amounts of water for at least 15 minutes. If irritation persists, seek medical attention.

Skin contact:

Remove contaminated clothing. Wash affected area with soap and water. Rinse thoroughly. If irritation persists or other symptoms are observed, seek medical advice.

Ingestion:

Rinse out mouth and drink lots of water. Seek medical attention.

Notes to Physicians

Activated charcoal mixture may be beneficial. Suspend 50 g activated charcoal in 400 mL water and mix well. Administer 5 mL/kg, or 350 mL for an average adult. Because of possible disturbances of cardiac rhythm, catecholamine drugs, such as epinephrine, should only be used with special caution in situations of emergency life support.

5. FIRE FIGHTING MEASURES

Flash Point

None

Extinguishing Medium:

Use fire-fighting measures which suit the environment and take into account other materials which may be involved. In general, water-based extinguishers should not be used for fires involving organic materials. Use carbon dioxide or dry powder.

Protective Equipment:

Wear self-contained breathing apparatus and protective clothing.

Hazardous Products of Combustion May Include:

Carbon monoxide, carbon dioxide, hydrogen fluoride (hydrofluoric acid), hydrogen iodide (hydroiodic acid). These products may cause severe eye, nose, and throat irritation or toxic effects.

6. ACCIDENTAL RELEASE MEASURES

Personal Protection:

Wear protective equipment including rubber gloves, and eye protection. Evacuate personnel to safe areas.

Environmental Protection: Take precautions to ensure product does not contaminate the ground or enter the drainage system.

Spill Clean-Up Mix with vermiculite or proprietary absorbent material and transfer to sealed containers for disposal.

7. HANDLING AND STORAGE

Safe Handling: Avoid formation of respirable particles. Do not breathe vapors or spray mist. Wash hands immediately after handling the product. Advice on protection against fire and explosion: do not spray on a naked flame or any other incandescent material.

Storage: Store in tightly sealed containers in a cool, well-ventilated place. Protect from light.

8. EXPOSURE CONTROLS AND PERSONAL PROTECTION

Engineering Controls Keep container tightly closed. Use only with adequate ventilation.

Do not aerosolize or spray. Prevent leaks in high-pressure systems that could create fine mists.

Personal Protective Equipment

Eye/face protection: Wear coverall chemical splash goggles. Additionally, wear a face shield where the possibility exists for face contact due to splashing or spraying of material.

Respirators: Where there is potential for airborne exposures, wear NIOSH approved air supplied respiratory protection.

Protective clothing: Where there is potential for skin contact have available and wear as appropriate impervious gloves, apron, pants, jacket, hood and boots.

Exposure Guidelines

Exposure limits:

Perfluorooctyl iodide
PEL (OSHA): None Established
TLV (ACGIH): None Established
AEL* (DuPont): 10 mg/m³, 8 hour TWA

Other applicable exposure limits:

Iodine
PEL (OSHA): 0.1 ppm, 1 mg/m³, Ceiling
TLV (ACGIH): Ceiling 0.1 ppm, 1.0 mg/m³
545.96 ppm, A4, 8 Hr. TWA
STEL 0.1 A4

Iodides
0.1 mg/m³, 8 Hr. TWA, A4
AEL* (DuPont): None established

*AEL is DuPont's Acceptable Exposure Limit. Where governmentally imposed occupational exposure limits which are lower than the AEL are in effect, such limits shall take precedence.

9. PHYSICAL AND CHEMICAL PROPERTIES

Boiling Point	160-161 °C at 760 mm Hg
Molecular Weight	545.96 g/mol
pH	Acidic
Form	Clear liquid above 25 °C
Color	Colorless liquid or solid; turns pink on exposure to light
Odor	Iodine (impurity)
Flash Point	None
Vapor Pressure	Not measured
Melting Point	25 °C
Density	2.067 @ 20 °C
Refractive Index	1.329 @ 30°C
Solubility in Water	Negligible

10. STABILITY AND REACTIVITY

Chemical Stability	Stable at normal temperatures and storage conditions.
Incompatibility with Other Materials	None reasonably foreseeable.
Decomposition	Decomposes with heat. Decomposition temperature: > 250 °C (> 482 °F) Hazardous decomposition products including carbon dioxide, carbon monoxide, hydrogen fluoride, toxic gases or particles may be formed during combustion. These products may cause severe eye, nose, throat, and lung irritation or toxic effects. Decomposes when exposed to UV light.
Polymerization	Polymerization will not occur.

11. TOXICOLOGICAL INFORMATION

RTECS Number:	Not listed
Acute Toxicity	
LD50:	No data reported
Skin irritation:	No data available
Eye irritation:	No data available
Human Experience:	Excessive exposures may affect human health as follows:
Inhalation:	Lungs: cough, shortness of breath. Symptoms may be delayed.
Skin contact:	Irritation, discomfort, rash.
Eye contact:	Excessive lachrymation, blurred vision, discomfort, irritation.
Ingestion:	Nausea, weakness, and disturbance.

12. ECOLOGICAL EFFECT

General: Prevent chemicals from entering the ground, water courses, or drainage system.

13. DISPOSAL CONSIDERATIONS

Disposal: Disposal should be via an approved contractor and should take full account of local regulations.

14. TRANSPORTATION INFORMATION

Mode	DOT/IMDG/IATA
UN Number	None. Non-hazardous for transport.
Class (Subsidiary)	None. Non-hazardous for transport.
Proper Shipping Name	None. Non-hazardous for transport.
Hazard Label (Subsidiary)	None. Non-hazardous for transport.
Packing Group	None. Non-hazardous for transport.
Shipping Hazard Label	None. Non-hazardous for transport.

15. REGULATORY INFORMATION

EINECS Number:	208-079-5
CAS Number:	507-63-1
RTECS Number:	Not listed.
TSCA:	Listed substance.

Hazard Symbols:

Xi Irritant:

Risk phrases: 36/37/38 Irritating to eyes, respiratory system and skin.

Safety phrases: 26 In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
 36/37 Wear suitable protective clothing and gloves.
 60 This material and its container must be disposed of as hazardous waste.

16. OTHER INFORMATION

HMIS (Hazardous Materials Identification System) Ratings

(scale 0-4)

Health (acute effects) = 1
 Flammability = 1
 Reactivity = 1

Legal Disclaimer:

For R&D use only. Not for drug, household, or other uses. The previous information is based upon our current knowledge and experience of our product and is not exhaustive. It applies to the product as

defined by the specifications. In case of combinations or mixtures, one must confirm that no new hazards are likely to exist. In any case, the user is not exempt from observing all legal, administrative and regulatory procedures relating to the product, personal hygiene, and integrity of the work environment. Unless noted to the contrary, the technical information applies only to pure product.

To our actual knowledge, the information contained herein is accurate as of the date of this document. However, neither Fluoryx Inc., nor any of its affiliates makes any warranty, express or implied, or accepts any liability in connection with this information or its use. This information is for use by technically skilled persons at their own discretion and risk and does not relate to the use of this product in combination with any other substance or any other process. This is not a license under any patent or other proprietary right. The user alone must finally determine suitability of any information or material for any contemplated use, the manner of use and whether any patents are infringed.
